Deluxe Wine Aerator Set

Getting Started

Before use, follow these instructions carefully:

- Unpack all parts from the box. Please keep all of your packing material until you ensure all of the parts for the Wine Aerator are present and undamaged.
- Before your first use of the Wine Aerator, wash it and all of the parts in hot soapy water. The Wine Aerator is also dishwasher safe.
- Do not leave plastic wrapping within the reach of small children and babies, it is a suffocation hazard.

Use

Simply hold the Wine Aerator above your wine glass or place it in the Holder stand and pour your wine through. You'll notice the wine displays a better bouquet, enhanced flavors and smoother finish. The amount of improvement depends on the wine's quality, age and variety. The Secura Deluxe Wine Aerator employs a multi-stage aeration system that infuses the wine with the optimal amount of air possible along with the 6-speed aeration control that lets you aerate different wines according to their vintage and characteristics. Use the lower setting (1-3) for white wines or lighter red wines and a higher setting (4-6) for bolder reds to "dial in" the optimal amount of aeration according to your individual taste.

After use, gently shake the aerator and place it into the stand or back on the holder.

Care and Maintenance

- Simply place the entire aerator and its components into the upper rack of your dish washer or allow warm water to run through it after each use.
- The soft travel bag allows you to conveniently take the aerator with you when you travel.
